

Read Me Ceres5.00.79 AE Job Queue can Fail Due to an Attempt to Display a Message (Ceres5.00.79)

Service Request or Support Case:

Issue addressed: The AE job queue can fail due to the message: "Fund No. and/or Default Dimensions could not be provided as there is more than one Grant Allocation for line %1. Please enter the Fund No. and/or Default Dimensions manually.". The message itself is valid, however, GUID is not allowed so the presentation of the UI element causes the job queue error.

Objects Affected:

Type	ID	Name
Codeunit	14012365	Grant Management (Check Only)

This release does not present a change in system usage methodology.

Resolution:

CU-14012365 (Grant Management (Check Only)) is updated by implementing CERES5.00.51 customizations from CU-14012365 ((Grant Management)).
