

Read Me Ceres5.00.82 DO Creation from Roadnet Donor Pickup Jnl.
fails for Vendor Type Vendor (Ceres5.00.82)

Service Request or Support Case:

Issue addressed: When creating the Donation Orders from the Roadnet Donation Pickup Journal, it fails because it is using the vendor type of Vendor instead of Donor resulting in a Vendor Not Found Error. Also: PO NoSeries used for creating DO's.

Objects Affected:

Type	ID	Name
Page	14012494	Roadnet Donor Pickup Journal

This release does not present a change in system usage methodology.

Resolution:

- Page 14012494 (Roadnet Donor Pickup Journal) is updated by adding functionality to populate "Vendor Type" and "Food Drive Donor" fields, before creating a Donation Order, so that the correct Donor record is read and the correct NoSeries are used.
